## ADMINISTRATOR'S REPORT April Update 2003

### **Hawaii Health Performance Plan (H2P2)**

H2P2's new Long Term Care Chapter, being facilitated by the Honolulu SAC, is expected to yield significant results from a planned forum on June 10. Several long term care experts are being invited to share their perspectives and provide recommendations to the chapter. Update of the H2P2 priorities for the Honolulu subarea may include input from community groups.

SHPDA met with our new chapter facilitator, Five Mountains Hawaii, in April. We brainstormed about the Complementary / Alternative Medicine chapter and possible approaches. There will be exciting opportunities to blend with the other H2P2 chapters in developing a first-ever set of outcome indicators for this field of health.

The SACs are focused on how they will update their H2P2 priorities in a meaningful way. A copy of the recent State Policy guidebook that was published for legislative use was distributed to the Kauai SAC for their review. Included in the document is an update of the H2P2 area priorities.

### **Subarea Health Planning Councils (SACs): H2P2 Activities**

- Hawaii**      **H2P2 Chapter on Behavioral Health:** The Hawaii SAC held a conference entitled "Getting from Here to There: Expanding Hawaii Island's Transportation Services for Behavioral Health and Health Services" on Friday, April 4, 2003 at Nani Mau Gardens outside of Hilo. More than fifty of the SAC's partners from the County of Hawaii, providers island-wide and local transportation experts participated. The key note speaker at the conference was Karl Kim, vice chancellor of UH-Manoa and a national expert on transportation systems. The conference produced many promising ideas that SAC will review and prioritize as they take the next steps of this project.
- Honolulu**    **H2P2 new Chapter on Long Term Care** – Members have scheduled a long term care forum in June to get input from local experts on the new Long Term Care Chapter for H2P2. They are also looking at a number of community groups to approach to get their input on H2P2 priority updates.
- Kauai**        **H2P2 Chapter on Behavioral Health:** Substance Abuse. KSAC and Kauai Drug Free Coalition members are working to complete and distribute

to households an updated Kauai Drug Prevention and Treatment Resources bookmarks.

Dr. Lee Evslin, CEO of Wilcox reported on its merger with Hawaii Pacific Health. He said that the merger has been a plus for Kauai because Wilcox is able to upgrade its services. Wilcox hopes to be in the black in five years.

**Tri-Isle** Before selecting their next H2P2 project, the SAC is updating their information about health resources in Maui County and reviewing their H2P2 priorities. They are collecting information about the current status of Behavioral Health resources and issues.

**Windward** The SAC decided that they will focus on developing priorities for H2P2 and will choose a new direction based on the issues that arise from that process. They are collecting information on current community health efforts and looking for information on current needs in their area.

**West Oahu** No meeting was held in March.

### **Research and Statistics:**

Website updates: Soon-to arrive.... decisions on the web! In the next two months, all certificate applications will include a copy of their final decision. We believe this will result in even better customer service and we hope that it also lead to greater understanding of the certificate of need program.

Utilization Survey: Our goal is to publish and distribute no later than June 1, 2003. We already achieved an 80% response rate to date.

### **Certificate of Need Applications**

- #03-02 Island Cardiac Centers-WEST, L.L.C. for the establishment of a Cardiac Catheterization service at St. Francis West at a capital cost of \$1,800,000. Incomplete – Significant information missing. Applicant is revising.
